

ACS STUDY

Country: Finland France Germany Greece Italy Portugal Spain

Hospital code: _____ Patient ID: _____

Type of Acute Coronary Syndrome on admission: STEACS
 Non-STEACS
 Non classifiable
 Not stated

Discharge diagnosis: Myocardial Infarction
 Unstable Angina

Age: _____ years

Sex: Male
 Female

Date of admission: _____ / _____ / _____
(dd) (mm) (yy)

Cardiogenic shock on admission: Yes No Not stated

Previous history

Smoking: Yes No Not stated

Diabetic: Yes, type I Yes, type II Yes, type not stated No Not stated

Hypertension: Yes, treated Yes, not treated Yes, treatment not stated No Not stated

Past history of CV disease: MI: Yes No Not stated

Other CHD: Yes No Not stated

Stroke: Yes No Not stated

PAD: Yes No Not stated

Previous PCI: Yes No Not stated

Previous CABG: Yes No Not stated

Previous heart failure: Yes No Not stated

Oral anticoag.: Yes No Not stated

Atrial fibrillation: Yes No Not stated

Procedures used during hospitalization

Thrombolysis : Yes, prehospital Yes, in other hospital Yes, in hospital
 Yes, unknown place of administration No

Coronary angiography: Yes No

Percutaneous intervention (PCI): Primary Rescue Other urgent during same hospitalization Elective No

Coronary artery bypass surgery: Yes No Not stated

Cardiac ultrasound examination (echocardiogram): Yes No Not stated

Intra-aortic balloon pump (IABP): Yes No Not stated

Severity indicators and complications during hospitalization

Troponin peak : _____, _____

Left systolic ejection fraction: _____ %

Cardiogenic shock: Yes No Not stated

Discharge

Date of discharge/death: _____ / _____ / _____
(dd) (mm) (yy)

Discharge vital status: Alive Dead
